PUBLIC LANDS. IBY TELEGRAPH TO THE TRIBUNE!

WASHINGTON, Wednesday, Sept. 15, 1869. The annual report of the Regents of the Smithsonian Institute is now preparing for submission to Congress in December. The report of the Executive Committee shows that the amount of capital invested in 1868 was 9690,018, and the receipts for the same period \$67,453 33. In addition to this amount the institution received from and accounted for to the Department of the Interior the sum of \$5,116 31, appropriated by Congress for the preservation and care of the property in the Museum collected by Government exploring expeditions. Of this sum, \$4,000 was the appropriation for the year 1869, and \$1,116 31 the balance of the previous year's appropriation. The State of Virginia paid during the year two per cent on its old bonded debt for the first six months, leaving one per cent still due for that period, claimed to be payable by Western Virginia as a just proportion of the original State debt. On the new bonds, issued for coupon interest, past due, nothing has been paid. The State proposes to sell its interest in certain canal, railroad, and other companies to liquidate this and other indebtedness, and favor able results may be anticipated for this investment in the future. The expenses for the year for the reconstruction of parts of the building destroyed by fire in 1867, repairs, furniture, &c., \$24,186 07; general expenses, such as lighting and warming the building, stationery, meetings of the Board of Regents, salaries of officers, &c., \$12.808 34; for publications, researches, &c., \$9,655 03; for expenses of library, museum, exchanges, labor, &c., \$10,361 15; total, \$57,100 59. The following are the estianated receipts for 1869: Interest on Smithsonian fund in United States Treasury, \$39,000; premium on sale of colu, \$13,000; interest on Virginia six per cent stock, \$1,067; sales of useless property, &c., \$500; total, \$53,567. The apprepriations are estimated as follows for the same period: for general expenses, \$15,000; publications and researches, \$15,000; library collections for museums and exchanges, \$10,000; continuing the repairs of the building. \$5,000; total, \$45,000, leaving from the yearly income a balance of \$8,567; total, \$53,567.

The claim of the Eureka Gold Mining Company to 1,664 feet of land, in length running along the Eureka lode, and including 23 acres of surface ground, situated in Grass Valley, Nevada County, Cal., has at last been allowed, and the patent will be forwarded from the Land Office in a few days. This is one of the oldest quartz mines in the State, having been discovered and located in 1851. - The ledge is traceable on the surface throughout the whole extent dlaimed by the Company, with an average thickness of four feet, the ore yielding about \$40, gold, per tun of \$,000 pounds. The total expenditure on the claim to date, including cost of extracting the ore, is reported by the United States Deputy Surveyor to be \$781,470.

According to the records of the Interior Department, 40,891 acres of Government land were sold during August in Missouri, Michigan, and Colorado.

A naval court martial will assemble in Boston on Thursday of next week for the trial of Lieut.-Commander Seeley of the United States steamer Pawnee, for alleged cruefties to his men on the trip from Brazil.

The amount of fractional currency received to-day at the Treasury from the New-York printers was \$147,000. Admiral Hoff, late of the Cuban Squadron, arrived

MINISTER MOTLEY'S INSTRUCTIONS ON THE ALA-BAMA QUESTION-NAVAL CHANGES. IGENERAL PRESS DISPATCE !

The Administration has not, contrary to report, re stricted Minister Motley in the reopening of negotiation for the settlement of the Alabama claims, although it was thought at the time he received his instructions, it would be expedient to wait until the excitement in England, caused by the Senate's rejection of the Clarendon Johnson treaty, had subsided, before reopening the subject with Her Majesty's Government. It was never contemplated that Mr. Motley should neglect any favorable invitation or opportunity to renew negotiations. It is no secret that he was specially instructed on the subject of the naturalization protocol which was ratified by the Senate; but Parliament has yet to pass the law necessary to carry it into effect. He has since been engaged in the negotiation of a consular treaty, a measure considered of much importance by this Government.

Commodore J. P. McKinstry is detached from the command of the Naval Station at Sackett's Harbor, and ordered to duty as Inspector of Light-Houses, vice Capt. Thomas H. Stevens, who awaits orders. Lieut-Commander Thos. H. Eastman is relieved from special duty under itear Admirst Thatcher, and ordered to command the Nyack, vice Lieut-Commander C. A. Babcock, who is ordered home. Chief Engrueer Montgomery Fletcher is ordered for duty as inspector of machinery at Mare Island, California. stricted Minister Motley in the reopening of negotiation

PORTLAND, Sept. 14.-The election made no guille on the surface of affairs, and there is, therefore, nothing to " get over." Some of the Democratic papers talk about gains, but there are no gains. There have Opeen changes, losses in some places and gains in others and, owing to the Hitchborn division, there will possibly be a slight loss to Republicans in representation, but nothing to hurt. The action of the Hitchborn men has been as foolish as mischievous. They have lost even the poor opportunity to be great in the future. Theirs was

"A leve that took an early root, And met an early doom."

Mr. Hitchborn will scarcely get 5,000 votes in the State, and these represent nothing but sinister and unprofitable matter. Some gave him white bread and some gave him brown, and some raised figures to worship; but none offered him bullocks or anything else that was going for a sacrifice. Some voted for him to rebuke Gov. Chamberlain for hanging the negro Harris, and some voted for him because he is a 'Universalist, and does not believe in violent measures anywhere, and a very few voted for him from an honest conviction that he would be able to do something for Prohibition.

The Republicans have undoubtedly carried all the Senatorial tickets but Knox and Lincoln Counties, and there is hope of the latter. So the victory is substantially the same as ever, and the only interesting phase there is to politics is as to the successor of Mr. Fessenden in the Senate. Messre. Morrill, Blaine, Lynch, and Gen. Shepley are prominently named. The Governor will appoint either Morrill or Shepley, if he appoints at all, probably the latter. Some say he will not appoint for the few weeks before the Legislature meets—the month of December, more or less-but will leave the Legislature to elect without any appointee in the way. They say the Governor himself is in the line of succession and will be warmly pressed. It is a case full of interest.

A special from Little Rock, Ark., says the Republican members of the Legislature held a meeting at which resolutions were adopted for the formation of Liberal Republican Party on the basis of Universal Suffrage and Universal Amnesty. A committee was appointed to solicit subscriptions and take other measures for the completion of the organization. The Committee to-day published a call for a State Convention to meet on the 13th of October to carry out the purposes of the

Senator Brownlow published a card yesterday, at Nashville, stating that he has disposed of his interest in The Knorville Whig, but that paper will continue to support the Republican cause. He says so many Union men in Tennessee have gone astray that he would advise his Northern friends to accept the Tennesses Republicaus only for what they are worth at present. The Press and Times, the Senter organ of Nashville, is adver-

The following ticket has been decided on by the Philadelphia Democratic City Executive Committee: City Treasurer, Col. William C. Patterson; City Commissioner, Major John R. Coxe; Recorder of Deeds, John G. Breugan; Prothonotary of the District Court, Washington J. Jackson; Clerk of the Court of Quarter Ses sions, David W. Sellers; Coroner, Joseph M. Richard.

ratification meeting has been called for Friday night. ATLANTA, Ga., Sept. 15 .- The Executive Committee of the Democratic party of Georgia, met to-day, under call of the chairman. There was no quorum preent, and they adjourned sine die, subject to the call of the chairman. It was the unanimous opinion of the mem-bers present that it would be inexpedient to recommend an election for members of Congress this year, there

The Hardward and the same was - ALTONOMIC CO. being no law authorizing such an election till Movember 1870. The right of the members, elected April 1858, to be admitted to seats in the XLIst Congress, is a question to be determined by the House of Representatives, when said members present themselves for admission, and an expression of opinion by this Committee is unnecessary.

The Democratic City Convention of Baltimore have nominated Augustus Albert for Sheriff, and Charles

P. Kahler for City Surveyor. It is said that the Hon. A. O. P. Nicholson of Columbia, Tenn., is a candidate for United States Senator in that State. Mr. Nicholson was a distinguished member of the old Democratic party. It was to him that Mr. Cass wrote his famous "Nicholson letter" in 1848. He was the editor of The Washington Union, the organ of the Peirce Administration from 1853 to 1857, when he elected to the United States Scuate from Tennessee.

A large mass meeting of Scandinavians recently held at Milwaukee, Wis., adopted the following resolutions;

Resolved. That in our opinion the interests of the Scan-dinavian people is identical with and inseparable from that of the State.

Resolved, That we regard the Republican party as the best medium by which to provide the state of the state of the state. best medium by which to maintain, develop and pro-mote the true interest of the State, both as regards the welfare of our citizens individually as also of the State

at large.

Resolved. That as long as that party is bound together
by love of liberty, truth and justice, the question of equal
distriction of, offices of profit, honor and trust among her
citizens of different nativity, is of minor importance. Resolved. That we denounce all and every attempt to withdraw, whether in part or whole, the support of the Scandinavian people from the Republican party at the coming election, on account of not being represented on the State ticket, as jeopardizing the success of our party and the true interest of all loyal and good citizens in the State.

State.

Resolved, That we adhere to and faithfully carry out

Resolved, That we adhere to and faithfully carry out the resolutions pledging our fidelity, faith, and support to the Republican party, adopted in Convention at Madison, on Aug. 31, 1869.

UNION REPUBLICAN CENTRAL COMMITTEE. The Union Republican Central Committee met in the Apollo Rooms, Broadway, last evening, with Edward Ketchum in the chair. Mr. Geo. P. Putnam, President of the Executive Committee, presented a feport concerning the call for the primary elections, requesting the report to be returned to the Executive Committee with power poissue the call. The report was accepted. The following named gentlemen were appointed a Committee on Correspondence: Wm. P. Richardson, H. C. Van Vorst, Ethan Allen, John Sedgwick, and Thad. B. Wakeman. The Committee on Resolutions is composed of H. D. Lapaugh, Richard Kelly, Geo. W. Lyon, Chas. P. Shaw, and Jas. Cushman, jr. The following named gentlemen were appointed a Committee on "Grievances and Corruptions": Wm. H. Bailey, John McCarthy, Wm. Gasse, D. W. Knevals, A. D. Brink, Chas. Carrick, H. N. Twombly, Jas. O'Brien, Norman Stratton, J. V. Mayer, W. T. Farnham, Robt. H. Willis, C. P. Shaw, J. H. Boody, H. D. Lapaugh, J. D. Ottiwell, J. W. Mason, G. W. Lyon, Chas. H. Kitchell, H. Babcock, and O. T. Hall. Col. Mason and Mr. Cushing, delegates from the XVIII District, asked what action had been taken concerning a resolution offered at a previous meeting that no office-holder should be elected as delegate to the State Convention. After much discussion the matter was declared to be out of order, and finally it was dropped. Judge Lothrop was elected Treasurer to fill vacancy caused by the resignation of Hugh Gardiner. The Committee adjourned to meet at so Clock on Wednesday next. President of the Executive Committee, presented a re-

THE SEVENTEENTH WARD TWEED DEMOCRATIC CLUB.

The Tweed Democratic Club of the Seventeenth Ward, a new organization numbering nearly 100 members, (mostly Germans), belonging to the Tammany members, (mostly Germans), belonging to the Tammany wing of the party, held their second meeting last evening. After scheming for some time to get a keg of lager without having to pay the necessary \$5, the leaders called the meeting to order, the cautious landlord having been prevailed upon to give the lager, and chalk it down. William C. Phillips presided. Several speeches were made eulogizing Mr. Tweed and abusing Belmont, and some resolutions were read setting forth that "m Wm. M. Tweed we recognize one who has been ever true to the principles of Democracy, and we consider him a proper person, and eminently fitted to fill the position of Chairman of the National Executive Committee." The resolution then censures Mr. Belmont, and calls him "aristocrat and bondholder," and other names. The resolutions were adopted with enthusiasm. Mr. Goldstein, the Treasurer, then delivered a speech in German, to the same purport as the resolutions. After carrolling new members, and inviting Thomas J. Creamer, State Senator, Jacob Cohen, candidate for Supervisor, and others to adjourned.

WESTCHESTER COUNTY DEMOCRATIC CONVENTION. The delegates to the 1st Assembly District (Westchester County) Democratic Convention met at Morrisania yesterday afternoon, and selected delegates Morrisania yesterday afternoon, and selected delegates to the State, Judiciary, and Senatorial Conventions. State Convention—Edward De Witt of Yonkers; Alternate, Henry F. Bunting of Morrisania, Judiciary Convention—Samuel M. Purdy of West Farms; Alternate, J. H. G. Blythe of Morrisania. Sonatorial Convention—John McCarthy and Horano C. Welsh of Morrisania, Hugh Lunny of Westchester, Fred, Grote of West Farms, and Hugh McElven of Yonkers. On motion of exalderman Hatfield, the delegates to the Senatorial Convention were instructed to vote for the renomination of Alderman Hatfield, the delegates to the Senatorial Convention were instructed to vote for the renomination of the Hon. Wm. Cauldwell, and a vote of thanks was tendered that gentleman for the efficient and satisfactory manner in which he had discharged his duties in the Legislature. Mr. Cauldwell, in response, made a few appropriate remarks as to his past course, and closed by thanking the Convention for their renewed expressions of confidence.

THE DEMOCRATIC JUDICIARY AND STATE CONVENTIONS.

The following is a list of the delegates elected to the Democratic Judiciary and State Conventions, by the nine Assembly District Conventions of King's County held in Brooklyn last evening:

Pres District. Ist, 2d and 5th Wards.—Judiciary, James B. Craig.
Rate. James B. Craig. Second District. 2d. 4th and 11th Wards.—Judiciary, Thomas B. Pearsall, State. William A. Fowler. Third District. 6th and 12th Wards.—Judiciary, James Trey: State. Thomas Foran. Fourth District. The and 20th Wards.—Judiciary, William C. Kingsley; State. Henry W. Slocam. Fifth District. 6th. 10th and 22d Wards.—Judiciary, Www. O. Dewitt: State, James M. Raber. Secenth District. 11th and 14th Wards.—Judiciary, William C. Brown: State, James Murphy. Fighth District. 15th, 17th and 18th Wards.—Judiciary, John Connolly; State, Dewitt C. Tower. Ninth District. 4th and 18th Wards and Country Towns.—Judiciary, Abraham Lott; State, George G. Hermau.

The Republicans of the First Assembly District of St. Lawrence County met at Ogdensburg on the

trict of St. Lawrence County met at Ogdensburg on the 10th just., and unanimously nominated the Hon. George M. Gleason for reflection to the Assembly. The following gentlemen were appointed delegates to the State Convention: The Hon. George M. Gleason, Gen. N. Martin Curtis, Newton Aldrich, the Hon. Abel Godard.

The Republicans held enrollment meetings ast evening in the IVth, Xth, and XIIth Assembly Districts. A large number of names were registered.

The Republican primary meetings for the City Convention in Newark will be held this evening. Fourteen different places have been appointed for meet

The Xth Assembly District Union Republi can Association met last night at No. 385 Bowery and enrolled thirty new names. The books will be open at the same place this evening! Other Republican clubs also had meetings tiast evening and largely increased their several rosters.

The Union Republican Association of the XVIth Assembly District met last night at Cosmopolitan Hall, Mr. Jesse Fonda in the chair, to enroll the Republicans of the district, in order that all might have a vote at the coming primary election. The Committee on Patron-age reported that they had secured a number of appoint-ments in the Custom-House and Post-Office for members of the Association.

A meeting of the XXth District Union Republican Association was held last night at Grimes's Garden, Mr. Mortimer C. Lee presiding. The report of the Executive Committee was read, containing resolutions passed by the German Radical Republican Association, in which that body pledged their continued and faithful adherence to the General Committee, of which John V. Gridley is President. The resolutions also recommended Mr. George Lambrecht as delegate to the General Committee, rice John B. Dingeldine resigned. Mr. Lambrecht was duly elected.

PERSONAL.

Miss L. A. Cary has been licensed as an nsurance agent at Tilton Junction, Iowa.

Ex-Lieut.-Gov. Sanford E. Church is lying dangerously ill of pleurisy at his residence in Rochester. It is stated that Senator Fessenden never recovered from the effects of poison received into his system at the National Hotel poisoning in 1857.

A large number of prominent railroad men, including Messrs. Fisk, William H. Vanderbilt, and Tor rance, passed through Albany yesterday, bound for St.

Mr. Robert Coningsby, who is writing for The Spectator upon the condition of the laboring classes in this country, says that when he was strange to America it seemed queer to him " to be parasol-spiked out of a scat in a street car by an elegant young lady, who only vouch safed the explanation that she would 'sit right there.'"

John O'Donnell, who hanged himself the other day in Liverpool, left a letter to his wife, saying he hoped she would meet him in heaven, where there would be Mrs. Corkhill or Mrs. Battersbe for to drink health to me. wishing me in hell, and librel enough to stand a pint of beer to ould nick to stur the coals."

Gen. C. H. Van Wyck, for several terms Representative in Congress from the Orange and Sullivan districts, New-York, was married yesterday at Mil-

Cummins and Walter Benton; lying, and reading sermons from manuscript. The court found for both parties—that is, there was no ground for the prosecution, and no malice in the prosecutor.

The Hon. George S. Boutwell, Secretary of the Treasury, arrived in the city last evening from home in Massachusetts, and is at the Aster House.

the Treasury, arrived in the city last evening from his heme in Massachusetts, and is at the Astor House.

Rear-Admiral Poor, U. S. Navy; the Hon. Galusha A. Grow, Pennsylvania; Prof. Agassiz, Cambridge, Mass.; Geb. T. Tilghman, and Outerbridge Horsey, Maryland, are at the Astor House. Sir Patrick K. Murray, Scotland; M. Delfosse, Belgian Minister at Washington; Gen. Wm. T. Reynolds, San Francisco, and Wm. Ewing, Belfast, are at the Brevoort House. Rear. Admiral Breese, U. S. Navy, is at the Everett House, The Count de Faverney, French Charged 'Affairs at Washington; Gen. W. W. Averell, late U. S. Cousul General at Montreal, and Kilburn Knox of Philadelphia are at the Albemarie Hotel. The Hon. H. A. Nelson, Secretary of State, Albany; Gen. R. W. Kirkham, San Francisco; Col. A. Gorloff of Russia; C. H. Graves, U. S. A.; J. R. Nicholson of Delaware, and Abbot Lawrence of Boston are at the Hoffman House. Hamilton Harris, Albany; Gen. D. B. Sackett, U. S. A.; Commander McCann, U. S. N.; Col. J. W. Bennett, Syracuse, and C. N. Yeamans, Massachusetts, are at the Fifth-avo. Hotel. Mrs. Gen. Gaines, Washington, is at the Coleman House. Judge J. S. Newman of Indiana is at the St. Nicholas Hotel. Gen. A. E. Curtis, Little Falls, N. Y.; Col. Townsend and John E. McDonongh, Philadelphia, are at the Metropolitan Hotel.

THE AVONDALE DISASTER.

ACTION OF THE PLYMOUTH RELIEF COMMITTEE

-THE RECEIPTS. PLYMOUTH, Pa., Sept. 15 .- The Board of Managers of the Avondale Relief Association met to-day pursuant to a call and appropriated \$5,000 for the immediate wants of the families left destitute by the recent disaswants of the families left destitute by the Feedu set.

They also appointed an executive committee consisting of the Hon. H. B. Wright, George Corey and Draper
Smith, to report at a future meeting some plan for the
management of the fund and its distribution. The
Board adjourned to meet at this place Tuesday, Sept. 21,
at 11 o'clock a. m. Henderson Gaylord, Treasurer of the
fund, acknowledged the following receipts:

BETTER THAN TARGET SHOOTING. To the Editor of The Tribune.

SIR: Two weeks ago the employes of Henry Seymour & Co.'s manufactory of shears and scissors, at Elizabeth, N. J., formed themselves into a military or, ganization for target practice. On Saturday the foreman of the shop, Mr. Daniel Campbell, suggested to their Cap-tain that they should disband and turn over all funds of the shop, Mr. Daniel Campbell, suggested to their Cap-tain that they should disband and turn over all funds raised and to be raised for the benefit of the widows and orphans of the Avondale colliery disaster. The idea was at once adopted, and the result (\$100) you will please find inclosed, which please turn over to the Avondale fund.

Membera.—B. Campbell, S. G. Mason, P. Dockrey, E. Hareschell, A. Jacquillard, T. McCor, T. Silk, Wm. Varankaup, G. Cross, C. Liebeck, Y. Neimerer, G. Schells, P. M. Hadden, P. Hochteld, I. Huoler, I. AN INSIDE VIEW-PAYING YOUR FOOTING-LIFE UNDER GROUND-STRIKES AND WAGES-LARGE FORTUNES-CORNWALL IRON MOUN-TAINS.

MAUCH CHUNK, Penn., Sept. 15 .- In riding up the Lehigh Valley, tail, dingy, strange-looking buildings may be noticed, not much unlike a Chicago grain-elevator Those are the "coal-breakers," where the mineral is crushed, and then run through screens to separate the various sizes. Large piles of coal-dust and slate show how much is thrown aside as useless. Near them is the entrance to the mine. Let us descend. Lamp in hand. we stand on the narrow front of the car, and begin to leave the glimmering daylight behind. We stop by the engine, placed in a recess cut out of the coal, and, amid the stifling heat, examine two large pipes, through which the water is pumped up. At the bottom of the descent is a group of miners. Last Saturday evening they were coal-black, except the whites of their eyes; now, Monday, the black only covers their faces in spots. One of them accosts us with, "Say, Mister, do you know the rules of the mines! You can't go through here unless you pay your footing." We handed the thirsty cyclop a trifle and passed along the gangway with the water soaking our best boots, and dripping upon our city-bought hats. Soon we came to a group of men working in darkness, made still more gloomy by their flickering lamps, and befouled with dirt and exposed to various dangers. The mules employed in the pit are stabled underground, and never taken up except when some accident happens, or the mine steps working. But cheerless as seems the condition of the miners. they ask for no pity. Only pay the combination prices, and they will seek no other favors. They prefer labor in the mines to any other kind of work. The hours of labor are not long, usually eight a day, and sometimes only six. The miners are exempt from great extremes of temperature, and their pay is liberal, though by no means as extravagant as some suppose. Last year the production of coal exceeded the demand

by 1,000,000 of tuns, and it was selling at a loss. Owing to the advice of the newspapers, too, the people ceased buying. The mine-owner could not store his product, since he has no facilities for storage, and the coal costs 25 cents a tun every time it is handled. Nor could the coal be forced on the market at a lower price. Just then, however, occurred the miners' strike, work ceased for six weeks; 800,000 tans of coal were taken out of the market, speculators took advantage of this turn of affairs and ran up the price at the auction sales of Seranton coal \$2 per tun. This monthly sale of 80,000 tuns fixes the rate for the whole 1,000,000 tuns produced. The public, fearing that the supply was short, bought their Wister's stock eagerly at the advanced rates. The same thing was repeated on a large scale this year. The workingmen's Benevolent Organization, 30,000 strong, theroughly compacted, extending through all the coal regions, and under the direction of leaders bold and shrewd, stopped work' when coal fell too low, that their wages might not be reduced. The miners, who like other men prafer idleness to work, at the sams price, expected that the time lost on strike would be compensated by an increased rate of wages. It was planned to last three weeks, but was prolonged by the refusal of some of the companies to accede to the terms, and has proved profitable to nobody except the speculators.

The miners work by contract, and shrewd men make to the advice of the newspapers, too, the people ceased

body except the speculators.

The miners work by contract, and 'shrewd men make for of Penn., to Kate, daughter of Col. John Brodhead, and sister-in-law to the Hon. D. M. Van Auken. The bridge party, with a number of friends, have started on a trip to California.

The Rev. George M. Derment, pastor of the Methodist Church at Brownstown, Indiana, has been tried by an ecclesiastical court on charge of wanting to spit in M. S. Casteel's face, and saying so; chewing to bacco and smoking a pipe; threatening to whip John to twenty millions of dollars. In 1822 he founded and endy except the speculators.
The miners work by contract, and shrewd men make

dowed the Lehigh University at Bet, lehem, giving 54 acres of land and \$500,000. Mr. A. Phrda, of Hazelton, another instance, is reported to be worth \$1,000,000. He has given \$200,000 to Lafayette College's at \$2,000,000. He has given \$200,000 to Lafayette College's \$2,000,000. Mr. Pardee has also given \$25,000 to the erection of \$1,000,000. Mr. Pardee has also given \$25,000 to the erection of \$1,000,000. Mr. Pardee has also given \$25,000 to the erection of \$1,000,000. Mr. Pardee has also given \$25,000 to the control in 1842, died worth \$1,500,000. Many other fortunes nearly as large have also been amassed in the district.

The fron interests of Pennsylvania are very closely connected with its coal products. One of the richests deposits is the Cornwall iron beds, five miles south of Lebanon, which are not surpassed even by the famous iron mountains of Missouri. There are three hills of solid fron ore, which sover 100 acres. Iron was first made here in 1735. The Continental army had some cannons and cannon balls made here in the Revolution. The one yields from 50 to 70 per cent of metallic iron. The miners work with shovel, pickar and wheelbarrow. One old man told us he had worked there for 63 years. This valuable property, owned by the Coleman and Grubb family, has been the cause of much litigation. A spiral railway runs to the top of the highest mountain, 300 feet, and extends to Lebanon. It was built at an expense of \$350,000, for the purpose of transporting ore.

AGRICULTURAL FAIRS. AMERICAN INSTITUTE FAIR.

YESTERDAY AT THE RINK-THE LA CROSSE IN-DIANS-WOOL AND MACHINERY-PIANOS AND

FURNITURE. The many-colored and brilliantly lighted Exhibition at the Empire Rink presented a highly picturesque and animated appearance last night, and the thousands of smiling and strolling spectators seemed to find themselves more than repaid for the trouble of a long trip and the expense of entrance fees, notwithstanding the fact that none of the machinery is yet in operation, and that some of the departments are still incom plete, while the catalogue, that indispensable to the intelligent inspection of such a show, is still a thing of the future. There was a musical matinee in the afternoon, and in the evening the free dispensation of Java and Vichy was generously continued, and scores of exhibitors busied themselves in assiduously explaining the peculiar and extraordinary merits of their traps, wringers, shades, burglar-alarms, or other ingenious inventions. At half-past o'clock the La Crosse Indians made their appearance, clad in their red and blue costumes, and armed with the peculiar weapons of their peaceful warfare. After march' ing about in double file for some time, 'they disbanded' and strolled lessurely around, solemnly contem-plating the show, and shrewdly distributing bills and announcing the time and place of their next ball-play. Some were tempted to indulge in the novel beverage of soda water, and one of them after vainly endeavoring to drink the foam at the bottom of the tumbler jerked it out of the holder on the floor, much to the detriment of the tumbler, the

Jacobs Treasure. Work on all the mines in this section was color on quietly yesterday, except at Avondale, where \$0,000 and year the work of the present of

eclining, folding, and easy chair, of his own avention, and C. C. Schmidtt of Sixth-ave, displays three legant folding chairs. M. B. Wentworth of East Broading exhibits a handsome parlor table exquisitely inlaid by hand with natural woods. Drouhard & Royé of fince-st. display another beautifully inlaid parlor table, igeniously contrived so it can be divided into two consists, each of which, in turn, may be opened into a neat, geen-topped card table. F. P. Bussell & Co. of First-ave, ethibit a lady's work table turned in a lathe; Hildebrand &Hertwig of Amity-place display a fine black walnut seretary, and A. Henkel & Co. of Cannon-at, exhibit sene remarkable medallions and other wood carving escuted by steam machinery, and a library table with leads of Shakespeare, Byron, Schiller, and Goethe, caved on the corners by the same process. Mr. Sulzbaher of Bleecker-st. exhibits a very elegant and ingelious secretary and bookcase, which may be readily meamorphosed into a comfortable bedstead. K. L. Spli of Elizabeth-st. exhibits some fine specimens of cad-cases, brackets and picture-frames, carved out of broklyn shows a case of walnut and gilt picture-frame medings.

NEW-YORK STATE FAIR.

FRST DAY-A FEW THINGS WORTH NOTICING. ILMIRA, N. Y., Sept. 14 .- As a whole, the show of the State Agricultural Society for the year 1869 s pobably the poorest ever made since its first in 1841. Thee are, of course, good specimens of stock of all clases, but there are more empty stalls and pens than fullones. And so in all the exhibition halls, the principal hing to be seen is empty space. I do not speculate for he cause of this failure; I only report the fact. In man respects the show is inferior to some of our County Fair. Theworst of it is that thousands of people will come here o learn important lessons in agricultural improve nent, and fall to find the school-master at home. Still,

ment, and fall to find the school-master at both.

therefore things here worthy of the notice of farmers, and
I wilhote some of them.

A codensed sheepfold, I think, is a new invention worthy
of thmotice of all sheep keepers. It was invented in
Monre County, and is calculated to shelter more sheep
under limited roofing, with great convenience to the
feede and health and comfort to the flock, than any
thoughan have ever seen. A new iron post fence, from Monre County, and is calculated to shelter more sheep under limited roofing, with great convenience to the feede and health and comfort to the flock, than any otherplan I have ever seen. A new troo post fence, from Chaunqua County, is simple, durable, and cheap. A singlered is bent so as to hold three rails, the ends being fastefied to two rough stones of any size or shape. An ice eleator, though not so important to farmers, is incended and elicient, and a great labor-saving machine. A hard potato-digger is neat, ingenious, valuable, new, and iexpensive. A revolving milk-shelf is good for saving liser to those who still use milk-pans; but there is another plan shown for setting the milk in double-bottome troughs, fixed in a frame, and movable for convenience of skimming, which is better than using pans, however conveniently they may be placed. These trougs are arranged so as to admit water between the trougs are arranged so as to admit water between the bottods. An ingenious hand sawing machine for joiner work is exhibited, which may be placed in any shop, or mored about the country for job work. More than fortyfears ago cast-fron planes were invented, and much mone spent in attempts to introduce them, but without succes. Carpenters all acknowledged the importance of substituting metal for wood, but found that the flat surface adhered so closely that they could not be worked. A simple improvement has oviated this difficulty, and now I find a lot of iron plane exhibited which are the most perfect tools I every saw. The difficulty I spoke of is removed by simply groving the face of the plane. Other improvements make the tools assily adjusted to sait various woods, &c. A plowing scaper appears to be a farm tool well worthy attention. An egg carrier is one of the most important new lines of eggs are so safely packed that he case can be roughly handled, and yet the eggs for leapy, and of universal application to the purpose intensed. Every woman who gathers a dozen feggs is intensed in this invention. In a case two

t ELMBA, N. Y., Sept. 15.—The attendance to-day a the State Fair was very large. Fully 30,000 persons visiged the ground. The weather was very pleasant. The recepts to-day were over \$7,000, about \$700 in excess of the recipts for the corresponding day at Rochester last year.

John A. Squires's paint-shop at No. 205 Lewisst., was damaged by fire early this morning to the extent of \$200; insured. Michael Roach, who was stabbed on Tues day in Earthnore, receiving six wounds, died yesterday. Two persons are under arrest for the act. The schooner Louisville from Liverpool for Halifax has been abandoned at sea. Her captain and orew landed at Dover, Eng., resterday.

CHESAPEAKE AND OHIO RAILROAD.

NEW-YORK AND VIRGINIA. The anticipated completion of the Chesapeake and Ohio Railroad, now running to White Sulphur Springs, in West Virginia, and to be extended to the Ohie within the next two years, will open another and most important avenue to trade between the

Great West and the Atlantic cities. From Richmond to the White Sulphur Springs, a distance of 225 miles, the road is completed and in good running order. From White Sulphur Springs to the Ohio River, a distance of 200 miles, the road is yet to be constructed.

The Messrs. Huntington & Co. of the Central Pacific Railroad and other influential parties of New-York City have, during the past six months, examined thoroughly the present condition and future prospects of the Chesapeake and Ohio Railroad, and have recently concluded to undertake the completion of this important road to the Ohio River.

By the terms of the agreement with the Chesapeake and Ohio Railroad Company, Mr. Huntington and his associates (ten in all) will have the control of this road from Richmond to the Ohio River, a distance of 425 miles; and thus New-York will control the most important railroad in Virginia-a road calculated to accomplish more good for Virginia than all their other internal improvements combined, and destined to make Norfolk a great commercial city. The advantages of this road to New-York, Virginia,

and the great West are apparent. 1. Cincinnati and the great central West will be 120 miles nearer to the Atlantic seaboard by this

road than by any other railroad new in operation. 2. In grade the Chesapeake and Ohio has decided advantages over the Baltimore and Ohio, over the Pennsylvania Central, and over the New-York and Eric. The maximum grade of the C. and O. R. R., in ascending the chief Alleghany range of mountains from west to east being only 29; feet to the mile; that of Pennsylvania Central, 58 feet to the mile; that of New-York and Erie, 60 feet to the mile; that of Baltimore and Ohio, 116 to the mile.

3. In climate this Central Virginia route has advantages over the other three routes. The Winters being much milder, therefore this route will have less obstruction from ice and snow than the more northern routes.

Thus, in distance, grade, and climate this route through Central Virginia will have decided advantages over any other road now in operation between the great West and the Atlantic seaboard, and when completed to the Ohio River it will constitute the best outlet for the trade of St. Louis, Louisville, and Cincinnati seeking the New-York market. It will develop the vast cannel, splint, and bituminous coal deposits situated in the great Kanawha region, and also the iron deposits of Central Virginia and Central West Virginia, and will make Norfolk an important commercial city. And, as 'all roads lead to Rome," we do not fear that New-York will reap less than her fair share of the advantages resulting from the construction of so great

Udolpho Wolfe, esq., once well known to the public by his extensive advertising, died on Tuesday at New-Brighton, Staten Island, from congestion of the lungs. Mr. Wolfe was a business man of rare ability and energy, and amassed a large fortune. His remains will be brought to his late city residence in Fourteenth-st., whence the funeral will take place to-morrow.

Mrs. Margaret Forney, mother of the Hon. John W. Forney, died at Lancaster, Pa., on Tuesday. She was in her 71st year.

A RAID ON MORRISANIA.

A gang of young rogues accompanied a target excursion from this city, yesterday, to a German park in Morrisania. On their way through Harlem four of the gang entered stores and lager bier saloons for the of the gang entered stores and lager bier saloons for the purpose of robbing the money drawers, and were soon in the custody of the police. The rest, as soon as they passed Harlem Eridge, commenced operations in the most daring manner, entering saloons and stores, and carrying off the contents of their tills in the presence of the owners. The lager bier saloon of Mrs. Folhoffer, at the corner of Boston-road and One-hundred-and-forty-fourth-st., North New-York, was entered and robbed of \$2, a bakery on Boston-road, near One-hundred-and-forty-fourth-st., was entered and robbed of \$12, Mrs. Smitherend, who keeps a saloon on Boston-road and One-hundred-and-thrity-inith-st., was knocked down and robbed by the ruffians. Others residing in the same neighborhood were also robbed by the gang, eight of whom were subsequently arrested by Officers Brown, Grouse, Pope, and Riley of the Morrisanta Police, and locked up to await an examination before Justice Hauptman.

THE WILL OF DR. GATES.

SIR: It is with extreme reluctance that I ap pear for the first time in public print, to correct a statement affecting the interests of my client or myself. The statement in reference to the Gates will on the 14th inst. tion. It was dictated by the counsel for the contents to the reporter in my presence, and the reporter promised me subsequently that nothing should be published excepting what actually transpired on that day, without consulting the claimants. Every facility will be furnished to give the public the facts as fast as they can properly be made public, which will be quite as soon as the contents of t be made public, which will be a testants desire. Yonkers, Sept. 15, 1869.

THE PACIFIC BAILROAD COMMISSION AT SAN FRANCISCO.

SAN FRANCISCO, Sept. 4 .- To-day a grand reception was given by the Chamber of Commerce of this city to Gen. Walbridge and his associates of the Raifroad Commission. The Hall was filled by the solid men of San Francisco. The Commission was welcomed by the pre-siding officer, Mr. J. W. Stow, who paid a high tribute to Francisco. The Commission was welcomed by the presiding officer, Mr. J. W. Stow, who paid a high tribute to Gen. Walbridge, as an early, earnest, steadfast friend of California and the Pacific Hailroad. He concluded by introducing Gen. Walbridge to the assembly. The General made one of his old-time, telling speeches. He recounted the early struggles and disappointments of the friends of the great trans-continental railway, traced their efforts up to the period of the breaking out of the Rebellion, and showed that the civil war had stimulated the commencement and completion of this great national improvement. Gen. Walbridge then announced that, so far from the national sprit of enterprise and progress being content or satisfied with one such great highway between the Atlantic and Pacific, in the near future at least three such would be in full, successful operation. He advocated a broad, generous catholic spirit on this subject, and trusted that no local interests or narrow views would be allowed to impede or hinder any of these magnificent enterprises which were destined to make California the pride and glory of the Union, and San Francisco the seat of wealth, commerce, and empire in the West, as New York is and will be in the East.

THE MASTER MECHANICS NATIONAL ASSOCIA-

PITTSBURGH, Penn., Sept. 15 .- The annual Convention of the Master Mechanics' Association of the United States assembled in this city to-day. Their time was cogupled with an investigation of mechanical reports was occupied with an investigation of mechanical reports relative to locomotive building and other matters pertaining to railroad machinery. The following officers were unanimously elected: President, H. M. Britton of Indianapolis; Vice-President, N. E. Chapman of Cleveland; Treasurer, S. J. Hays of the Illinois Central Railroad; Secretary, S. P. Dodge of Chicago. A grand-banquet will be tendered the mambers of the Convention tomorrow evening, by the manufacturers of this city.

HEAVY BAINS IN MINNESOPA.

MINNEAPOLIS, Minn., Sept. 15 .- A remarkable rise in the Mississippi River has occurred, owing to long continued and unusually heavy rains. A boom above the dams broke yesterday morning, and 1,500,000 feet of logs ran over the fails, sweeping off the light flush feet of logs ran over the falls, sweeping off the light flush boards of the temporary horse dam, which holds the vol-iume of the Mississippi back from the improvement works. The dam is uninjured. The Minnesetz River, emptying below here into the Mississippi, is reported to be eight feet deep, and 15,000 tams of hay have been de-stroyed. It has rained incessantly for four days, and the grain crops have been greatly damaged. The damage in St. Croix County alone is estimated at \$120,000.

GREAT FRESHET IN KANSAS. ATCHISON, Kan., Sept. 15 .- The freshets in Washington County have done immense damage. Mills, farm houses and crops have been washed away.

GENERAL TELEGRAPHIC NEWS. John G. Nile, a German, died in Albany, yesterday, of apoplexy, The monthly service of the new line of steamers between London and Aspinwall will commence

....The bark Sitka, from St. John, N. B., for Gloucester, has been towed into Bristol, Eng., having been diamasted.

. The members of the United States Grand Lodge of Odd Fellows reached Sacramento on Tuesday. They participated in the laying of the corner-stone of an Odd Felllows Temple yesterday. The Danish bark Mary dragged anchor in Manzanillo Bay, on the night of the 6th inst. during a heavy norther, and sunk in shallow water. The Spanish war steamer Huelva went to her assistance.

... The Ecclesiastical Court, summoned for the trial of Rev. Mr. Cheney at Chicago, met yesterday pursuant to adjournment, and, at the suggestion of the Bishop, adjourned till the 16th of November.The Iowa and Wisconsin State Fairs opened yesterday, but owing to the unpromitious state

of the weather the attendance has not been very large. The entries at both fairs are greatly in excess of any former year.
